

EDITORIAL

A major aim of CROP is to enhance communication between poverty researchers across national and disciplinary boundaries and make other social scientists interested in doing poverty research. There are several ways to work towards this aim, and we shall have to make use of all of them if we are to advance further.

For those of you who are attached to Internet, it is now possible to visit the CROP web page at <http://www.uib.no/svf/helsos/crop>. The page holds general information about CROP, including the latest CROP Newsletter, an overview of previous workshops and plans for upcoming workshops, call for papers, a list of CROP publications in print and those under preparation, a presentation of the CROP Standing Committee and the Secretariat, as well as other relevant communications. Next step is to include abstracts of papers presented at CROP conferences and a more detailed description of ongoing projects.

However, if a dialogue between researchers is to occur, we shall need more than the one way communication built into this first attempt at going electronic. The CROP Secretariat welcomes all initiatives for creating electronic meeting places and invites you to help us exchange addresses for links to other relevant web pages. We also want to set up a CROP Bulletin Board for exchange of information, discussion about topics of mutual interest, and dissemination of information about ongoing poverty research and new publications. We shall get back to you on this score in the next newsletter. In the meantime, all feed-back on the use of electronic media in poverty research and the extended use of the CROP web page is appreciated.

Those of you who are not yet connected to Internet will be at a disadvantage, once more stressing the fact that new technology and the lack of resources increase the gap between the haves and the have-nots. To make up for a small part of this gap the CROP Secretariat offers to make available a printed version of the web-pages which can be mailed upon request. The CROP Newsletter will be mailed out to all participants in the CROP network, as before.

Else Øyen, Chair of CROP

POVERTY AND THE ENVIRONMENT

CROP, ADIPA (Association of Development Research and Training Institutes of Asia and the Pacific) and UNCTAD organised the workshop in Sabah, Malaysia, October 28th and 29th, 1995. The following papers were presented:

CROP IN BRIEF

CROP is a world-wide network of researchers and experts on poverty. The aim of **CROP** is to establish an arena for interdisciplinary and comparative research on poverty in developed and developing countries. **CROP** organises regional workshops, symposia and international conferences, promotes joint research projects, links poverty researchers and disseminates information about poverty research. **CROP** is developing an international database on poverty researchers, and documentation of ongoing research. **CROP** is chaired by professor Else Øyen, University of Bergen, Norway.

If you wish to have your name listed in **CROPNET**, you are welcome to write the **CROP** Secretariat and request a copy of the **CROP Database Questionnaire**. For further information please contact:

CROP Secretariat
Fosswinckelsgate 7,
N-5007 Bergen,
Norway

Ph.: +47-55-58 97 39 Fax: +47-55-58 97 45
e-mail: crop@uib.no

WEB PAGE FOR CROP

Those who have an Internet connection and a WWW browser programme installed, find the CROP web page at <http://www.uib.no/svf/helsos/crop>. The page holds general information about CROP, news about past and ongoing activities, as well as the latest CROP newsletter.

CROP POLICY OF DISTRIBUTION

Please note: We can no longer answer the increased demand for copies of single papers, presented at CROP seminars. However, if you have the patience, most of the papers become available through the publications that follow the seminars and will be duly announced. We still supply the authors addresses, phone & fax numbers.
